

DELIVERING CERTAINTY FOR DATA CENTERS

The Finest in Generator Exhaust Products

Schebler’s systems provide the certainty of high-performing, cost-effective exhaust solutions for large facilities with multiple generators. As the data center industry continues to experience rapid growth driven by the increasing demand for cloud services, AI and data storage, scalability becomes essential. Our prefabricated systems:

- Reduce installation time and costs
- Ensure durability and efficiency
- Can deliver zero leakage and fire-resistant reliability and safety
- Keep data center operations running smoothly

WITH SCHEBLER, YOU GET THE CERTAINTY OF:

CUSTOM ENGINEERING

STEADFAST SUPPORT

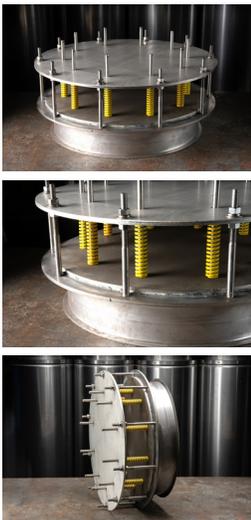

PREFABRICATION

The Certainty of Innovative Venting Solutions

Our systems meet stringent compliance standards while providing superior cost-effectiveness compared to field-fabricated alternatives. Using advanced materials and precise fabrication, our systems are tailored to integrate seamlessly into complex facility layouts.

Generator Exhaust Systems Designed for Data Centers

Cost-effective and safe, our factory-fabricated generator exhaust systems reduce building cooling loads and temperatures, lowering costs and injury risk. Our products provide a great number of benefits for data centers and other large facilities with multiple generators.

P SERIES

These UL listed, lightweight chimney products offer low clearances, lower initial costs and multiple insulation options. UL listings include UL 103 and UL 2561.

- PA** Featuring 1" of air gap.
- P1** Featuring 1" of insulation.
- P2** Featuring 2" of insulation.
- P2A** Featuring 2" of insulation and 1" air gap.
- P4** Featuring 4" of insulation.
- SW** Single-wall stainless steel exhaust product.

CPR SERIES

The ideal line for critical generator exhaust applications where the certainty of zero leakage is required. The CPR Series provides maximum fire protection while minimizing installation space. UL listings include UL 103 and UL 2561.

- CPRP2** Featuring 2" of insulation.
- CPRP2A** Featuring 2" of insulation and a 1" air gap.
- CPRP4** Featuring 4" of insulation.
- CPRSW** Single-wall bolt together exhaust product.
