

# DELIVERING CERTAINTY FOR RESTAURANTS/FOOD SERVICE

Providing durability and precision for high-heat equipment

At Schebler, we design our venting solutions to meet the intense demands of restaurants and food service operations with high-heat equipment, like pizza ovens, broilers, industrial dishwashers and grease ducts. We ensure peak performance while addressing critical needs, such as temperature management and cleaning access.

- Prioritize safety and efficiency
- Help maintain smooth, reliable operation
- Ensure code compliance
- Easy installation and maintenance

## WITH SCHEBLER, YOU GET THE CERTAINTY OF:

CUSTOM ENGINEERING

STEADFAST SUPPORT

PREFABRICATION

### The Certainty of Efficient and Safe Venting Solutions

Schebler’s venting systems efficiently manage high-temperature exhaust from commercial kitchen equipment. They help ensure kitchens remain compliant with safety regulations while delivering reliable, high-performance operations.

### Designed for Restaurant and Food Service Operations

Leveraging our extensive expertise, we deliver custom exhaust systems tailored to the specific layout and operational needs of each facility. We help foodservice operators create efficient, safe and productive kitchen environments.

#### FyreGuard®

These grease ducts increase usable space with zero clearance while improving fire safety. They are ideal for spaces requiring hot-temperature venting, such as for cooking or grilling. UL listings include UL 1978 and UL 2221 Classified.

#### P Series

These UL listed, lightweight chimney products offer low clearances, lower initial costs and multiple insulation options. UL listings include UL 103 and UL 1978.

#### CPR Series

The ideal line for critical exhaust system applications where the certainty of zero leakage is required. The CPR series provides maximum fire protection while minimizing installation space. UL listings include UL 103 and UL 2561.
